### MEMORANDUM

To : Board of County Commissioners

From : Keith A. Browning, P.E., Director of Public Works/County Engineer *KB*

Date : July 1, 2009

Re : Consider awarding construction contract for polymer concrete overlay  
Route 1061 bridge over Kansas River (Bridge No. 14.90-21.90)  
Project No. 2009-8

Bids were opened June 29<sup>th</sup> for a multi-layer polymer concrete overlay for the Kansas River bridge north of Eudora (see attached bid tab). Six contractors submitted bids as follows:

<u>Bidder</u>	<u>Total Bid</u>
Wildcat Construction	\$197,402.50
PCI Road	\$219,760.68
Mill Valley Const.	\$230,404.50
Beachner Construction	\$262,821.35
King Construction	\$270,612.00
R.A. Knapp Const.	\$292,029.25
<i>Engineer's Estimate</i>	<i>\$294,127.50</i>

The approved CIP includes \$337,400 for this project.

We plan for construction to commence late-July or early-August. It will take the contractor approximately one month to complete the work, weather permitting. The contractor will maintain traffic on one lane of the bridge by utilizing temporary traffic signals.

The bridge deck has been recently inspected, and is in reasonably good condition. The bid assumes 5 square yards of concrete bridge deck will require patching, and we anticipate this will be sufficient. However, if additional patching is required the final construction cost will exceed the bid amount accordingly. Due to this uncertainty, we request authorization for the Public Works Director to approve change orders up to 10% of the total contract cost.

Action Required: Award construction contract to the low bidder, Wildcat Construction, in the amount of \$197,402.50 for Project No. 2009-8, a multi-layer polymer concrete overlay for the Route 1061 bridge over the Kansas River, and authorize Public Works Director to approve change orders totaling up to 10% of the contract cost.
