Change Request

URL of web page	https://www.dgcoks.gov/administration/sustainability/recycling-options
-----------------	---

Content that needs to be replaced	I am requesting a new temporary content block to go just below the options icons that appear in the first white block. Basically this new block would shift the current green block and everything underneath down. See attached for the content for the block. I do not yet have the survey link. I would be interested in having the block ready to go anyway and I can just add the link in when I receive it.
-----------------------------------	---

Replacement content	<input type="text"/>
